Education

KIET Group of Institutions **Nov 2022 – Jun 2026**
Bachelor of Technology in Information Technology *Ghaziabad, India*

- **Coursework:** Data Structures and Algorithms, Operating Systems, Database Management Systems

Work Experience

Qualityveda — Full Stack Developer **March 2024 – Feb 2025**

- Developed and maintained full-stack web applications using **React.js, Node.js, Express.js and MongoDB**.
- Developed a secure private chat application using **Firebase Authentication** and protected routing.
- Built responsive and reusable UI components for desktop and mobile devices.
- Integrated REST APIs and implemented authentication, authorization and route protection.
- Collaborated on feature development, debugging, API integration and performance improvements.

IBM SkillsBuild — Full Stack Developer **May 2025 – Apr 2026**

- Worked on full-stack development using **React.js, Node.js, Express.js and MongoDB**.
- Developed and integrated **REST APIs** with frontend applications for dynamic data handling.
- Built responsive user interfaces using **React.js, HTML, CSS and JavaScript**.
- Used **Git and GitHub** for version control, code management and collaborative development.
- Improved application performance, responsiveness and overall user experience.

HeavoHealth — Full Stack Developer Intern **May 2026 – Jul 2026**

- Developed and maintained a scalable healthcare web application using **Next.js, React.js and TypeScript**, implementing responsive UI, reusable components, health tracking, nutrition guidance and personalized diabetes-care workflows.
- Designed and integrated **RESTful APIs** using **Python and Django** for user management, health data, nutrition programs, subscription workflows, authentication and personalized health recommendations.
- Integrated frontend and backend services to deliver secure, scalable healthcare features, optimized application performance and API response handling, and improved user experience across desktop and mobile devices.

Projects

Quick Chat — Real-Time Chat Application Link — Live Demo — *React.js, Node.js, Express.js, MongoDB, Socket.IO*

- Built a real-time MERN chat application with Socket.IO for instant messaging between users.
- Implemented JWT-based authentication and protected routes for secure user access.
- Developed responsive and reusable React.js components for the chat interface.
- Integrated REST APIs with MongoDB to manage user accounts and chat messages.

Thumbify — AI Thumbnail Generator Link — Live Demo — *React.js, Node.js, REST API, AI, Image Generation*

- Developed an AI-powered thumbnail generator for content creators and YouTube users.
- Built scalable full-stack architecture using React.js, Node.js and REST APIs.
- Integrated AI services for generating customized thumbnail content.
- Optimized API handling and frontend performance for a responsive user experience.

Technical Skills

Languages: JavaScript, Python, Java, C, C++
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Redux
Backend: Node.js, Express.js, REST APIs, JWT, Socket.IO
Database: MongoDB Atlas, MySQL
DevOps & Tools: Docker, Git, GitHub, Postman, VS Code
UI/UX: Figma, Wireframing, Prototyping

Certifications

AWS Certified AI Practitioner **2025**

- Gained knowledge of AI/ML services and AWS cloud concepts.

Achievements

- Freelancing — Delivered 8+ freelance websites and SEO optimization projects, increasing client traffic by up to 60% and generating 1000+ total monthly visits.
- Project Development — Developed and deployed responsive full-stack web applications using modern frontend and backend technologies.
- Participated in SIH and InnoTech hackathons.
- LeetCode — Solved 150+ problems across arrays, DP, graphs, and trees, achieving a streak of 30+ days and ranking in the top 15% in contests (practice stats).
