Education

KIET Group of Institutions

Bachelor of Technology in Information Technology

Nov 2022 – Present

J.K.G School

Intermediate - 70%

2022

High School - 74%

2020

Experience

Qualityveda — Freelancer

Feb 2025 – Jul 2025

- Developed a secure private chat application using Firebase Authentication and protected routing.
- Improved UI responsiveness across devices.
- Implemented authentication and route protection reducing unauthorized access risks.

IBM SkillsBuild — Full Stack Developer Intern

Aug 2025 – Sep 2025

- Worked on full stack development using React.js, Node.js, Express.js and MongoDB.
- Contributed to real-world projects with experienced developers and mentors.
- Collaborated using Git for version control and task management.

Projects

Quick Chat — Real-Time Chat Application

Nov 2025

Live Project

- Built MERN chat app with real-time messaging using Socket.IO.
- Implemented JWT authentication for secure session management.
- Designed responsive UI improving user engagement.
- Optimized backend APIs to reduce response time.

Thumbify — AI Thumbnail Generator

Oct 2025

Live Project

- Developed AI-powered thumbnail generator for content creation.
- Built scalable full-stack architecture using React and Node.js.
- Integrated customizable templates for better user experience.
- Improved performance through optimized API handling.
